The Science of the Total Environment 187 (1996) 263–264

the Science of the Total Environment
An International Journal for Scientific Research into the Environment and its Relationship with Man

Volume contents

Volume 187 (1996)

Comparison of three methods for estimation of the reduced-S content in estuarine sediments
C. Lin, M.D. Melville, I. White, Y.P. Hsu (Australia) 1
Concentrations of PCBs and other organochlorine compounds in eels (*Anguilla anguilla*, L.) of the Vanajavesi watercourse in southern Finland, 1990–1993
J. Tulonen, P.J. Vuorinen (Finland) 11
The Tomlinson Pollution Load Index applied to heavy metal, 'Mussel-Watch' data: a useful index to assess coastal pollution
E. Angulo (Spain) 19
A novel analytical method for determination of picogram levels of total mercury in gasoline and other petroleum based products
L. Liang, M. Horvat, P. Danilchik (Monaco, USA) 57
Cadmium accumulation by several seaweeds
S. Hu, C.H. Tang, M. Wu (Hong Kong) 65
Microbial densities and physicochemical quality of some crude oil flow stations' saver pit effluents in the Niger Delta areas of Nigeria
A.I. Okoh, G.O. Babalola, M.K. Bakare (Nigeria) 73
Role of particulate matter from vehicle exhaust on porous building stones (limestone) sulfation
C. Rodriguez-Navarro, E. Sebastian (Spain) 79
Burning radionuclide question: What happens to iodine, cesium and chlorine in biomass fires?
B.D. Amiro, S.C. Sheppard, F.L. Johnston, W.G. Evenden, D.R. Harris (Canada) 93
Retention and exchange behaviour of vehicular lead in street dusts from major roads
A.S. Al-Chalabi, D. Hawker (Australia) 105
Solid phase speciation of radiocaesium in bottom sediments
J. Wauters, M.J. Madruga, M. Vidal, A. Cremers (Belgium) 121
Distribution and plant availability of heavy metals in different particle-size fractions of soil
J. Qian, X.-q. Shan, Z.-j. Wang, Q. Tu (China) 131
Certified reference material of lichen (CRM 482) for the quality control of trace element biomonitoring
Ph. Quevauviller, R. Herzig, H. Muntau (Belgium, Switzerland, Italy) 143
A biomonitoring method using the cellular distribution of metals in moss
D.H. Brown, G. Brūmelis (UK, Lativa) 153

Book review 163

Announcements 165

Risk assessment of the threat of secondary poisoning by metals to predators of earthworms in the vicinity of a primary smelting works
D.J. Spurgeon, S.P. Hopkin (UK) 167

The distribution of heavy metals in a transect of the three states the Netherlands, Germany and Poland, determined with the aid of moss monitoring
U. Herpin, J. Berlekamp, B. Markert, B. Wolterbeek, K. Grodzinska, U. Siewers, H. Lieth, V. Weckert (Germany, The Netherlands, Poland) 185
Uncertainty in estimated half-lives of PCBS in humans: impact on exposure assessment
J.H. Shirai, J.C. Kissel (USA) 199
Validation of a methodology for modelling PCDD and PCDF intake via the foodchain
G.H. Eduljee, A.J. Gair (UK) 211
The effect of polluted sediment on the gonadal development and embryogenesis of bivalves
B.M.H. Timmermans, H. Hummel, R.H. Bogaards (The Netherlands) 231
Transfer of radiocaesium from podzol to ryegrass as affected by AFCF concentration
H. Vandenhove, M. Van Hees, S. De Brouwer, C.M. Vandecasteele (Belgium) 237
Gamma-ray activity and dose rate of brick samples from some areas of North West Frontier Provience (NWFP), Pakistan
S. Ali, M. Tufail, K. Jamil, A. Ahmad, I.A. Khan (Pakistan) 247

Short Communication
Fenvalerate (α-cyano-*m*-phenoxy-benzyl α-isopropyl-*p*-chlorophenyl acetate) residues in and on okra fruits
R.K. Jain (India) 253
